

Amount Requested: \$250,000

This project would provide safe, supervised programs and activities for youths in high-risk areas in Sullivan County, and through collaborations with local partners, also provide substantial character development and civic volunteer opportunities. Since September 2007, Boys & Girls Clubs of Sullivan County have created 31 part-time and two full-time jobs for local residents. Their program would continue to create jobs for new hires and additional hours for part-time program aides.
