

Amount Requested: \$150,000

This project provides technology to fight Part I and Drug Trafficking criminal activity within Sullivan County communities by providing tools to local law enforcement via an information sharing network. The solution for which funding is being requested deals directly with supplying the tools and the technology needed to collect, categorize and distribute information to police agencies and first responders to combat the issues mentioned. A state of the art, proven, real time, dynamic information sharing network and its associated tools will be implemented between the Sullivan County police agencies and the District Attorney's office.
